JOB DESCRIPTION

Position: Camp Physician

Direct Supervisor: Camp Medical Director

Camp physicians will be present at various scheduled times throughout camp. Primary duties include sharing rotating "on-call" responsibilities, providing and overseeing medical care, distributing medications and reviewing and resolving camper care concerns.

Essential Job Functions:

- Part-time leadership position
- Disseminate information about camp to other professionals in the community
- Help recruit children who meet selection criteria for camp
- Participate in and resolve cases presented at daily medical rounds
- Write orders and complete documentation per guidelines
- Assist with pre-camp chart development
- Provide health assessments during opening day check-in or during daily “clinic time” and as needed in health services/infirmary
- Assist with medication passing as necessary
- Assist with camper asthma education
- Respond to emergency situations and communicate priorities for action
- Interact positively and professionally with health care team and camp staff
- Act as a mentor for all staff
- Provide camp-wide care as necessary
- Participate in camp activities
- Assist in preparing close of camp communication to parents and health care providers
- Assist with inventory and packing of health services/infirmary at close of camp

Licensure and Experience:

- Licensed in state of camp program
- Interest and/or experience with pediatric asthma
- Broad knowledge of the pathophysiology of asthma, medications utilized in the treatment of asthma, allergens and allergic responses
