JOB DESCRIPTION

Position: Camp Medical Director

Direct Supervisor: Camp Medical Board

The camp medical director is a licensed physician with specialized training and experience in asthma and/or pulmonary medicine. Previous experience as a camp physician is greatly preferred. This is a two-year commitment; the first year the Medical Director is assisted by the immediate past Medical Director, the second they mentor to Medical Director Elect.

Essential Job Functions:
- Part-time leadership position
- Help recruit health care staff; designate a daily on-call physician
- Help recruit children who meet selection criteria for camp
- Assist in the acquisition of medical supplies and equipment
- Review and/or revise Standing Orders
- Lead camper selection process
- Assist with pre-camp chart development
- Review and evaluate asthma education curriculum
- Provide general supervision of the entire health care team
- Provide medical orientation to camp counselors
- Actively participate at camp (half-time minimum)
- Provide health assessments during opening day check-in or during daily “clinic time” and as needed in health services/infirmary
- Assist with medication passing as necessary
- Assist with camper asthma education
- Respond to emergency situations and communicate priorities for action
- Interact positively and professionally with health care team and camp staff
- Provide camp-wide care as necessary
- Participate in camp activities
- Assist in preparing close of camp communication to parents and health care providers
- Assist with inventory and packing of health services/infirmary at close of camp

Licensure and Experience:
- Licensed in state of camp program
- Interest and/or experience with pediatric asthma
- Broad knowledge of the pathophysiology of asthma, medications utilized in the treatment of asthma, allergens and allergic responses
